Description

FT-301/302

The Siemens Building Technologies, Fire Safety FT-301 is a Remote Firefighters Telephone Station which includes a cradle with switch hook mounted on a red enamel, heavy gauge steel support and a telephone handset. The handset is constructed of red, high impact plastic and attaches to the cradle assembly with a retractable coil cord. The FT-301 is designed for use with the Fire Safety MXLV Emergency Voice Alarm/Communication System.

The FT-301 contains the circuitry necessary to produce a distinct zone call-in signal when the handset is removed from its cradle. It also provides surge suppression and in-out terminals for supervised wiring.

The FT-301 is used with: FB-300 Flush Backbox 14" H x 7" W x 3.5" D or FB-301 Surface Backbox 15" H x 8" W x 3.62" D and FCC-300 Key Locked Door 15" H x 8" W FT-302 includes Push-to-Talk button in handset.

PT-303/304

The PT-303 is a portable Firefighters Telephone. It is constructed of red, high impact plastic and includes a retractable coil cord with a phone type plug. The PT-303 is designed for use with the Fire Safety MXLV Emergency Voice Alarm/Communication System. It can be plugged into the FJ-303 series of portable telephone jacks. The PT-304 includes Push-to-Talk button in handset.

FJ-303/304

The FJ-303 is a Remote Firefighters Telephone Jack for use with the Fire Safety PT-303 and 304 series of portable firefighters telephone handset. The jack is mounted on a red, baked enamel rolled steel single gang wall plate silkscreened with a white telephone icon. The FJ-303 has flying leads while the FJ-304 has screw terminals.

The FJ-303 is designed for use with the Fire Safety MXLV Emergency Voice Alarm/Communication System. It includes surge suppressors as well as other circuitry required to produce a distinct zone call-in signal when a portable telephone handset is plugged in. The jack also provides polarity reversal protection and in-out terminal connections for supervised wiring.

Note: PT-303/304 and FJ-303 CANNOT be used with the EVACS+ system, but are compatible with the CPV-90.

The Fire Safety FJ-303SS and FJ-304SS are identical to the FJ303 and FJ-304 except that the plate is manufactured of stainless steel. The plate is silk-screened as shown in the FJ-303 photograph.

Ordering Information

Model Number	Description	Part Number
FT-301	Remote Firefighter's Telephone Station	515-281493
FT-302	Remote Firefighter's Telephone Station w/ push-to-talk	515-281492
FT-301C	Remote Firefighter's Telephone Station w/ armored cable	515-281635
FT-302C	Remote Firefighter's Telephone Station w/ armored cable and push-to-talk	515-281636
FT-301CL	Remote Firefighter's Telephone Station w/ armored cable and zone select indicator LED	515-281782
FT-302CL	Remote Firefighter's Telephone Station w/ armored cable and zone select indicator LED and push-to-talk	515-281783
FB-300	Flush backbox for FT Series telephone stations	500-680587
FB-301S	Surface backbox for FT Series telephone stations	500-624388
FC-300S	Key locked door for FT Series telephone stations	500-680588
PT-303	Portable firefighter's telephone	515-090973
PT-304	Portable firefighter's telephone w/ push-to-talk	515-091716
FJ-303	Firefighter's jack w/ flying leads	500-690975
FJ-304	Firefighter's jack w/ terminal block	500-692670
FJ-303SS	Firefighter's jack w/ stainless steel plate w/ flying leads	500-698309
FJ-304SS	Firefighter's jack w/ stainless steel plate w/ terminal block	500-698310
FT-GLS	Replacement glass for FC-300	500-624347

Technical Data

PT-303/304

- Finish:** Red, high impact plastic handset
- Plug:** 1/4" phono type plug-2 conductor ring + tip. Tip, sleeve and body machined brass, nickel plated
- Mouthpiece:** Carbon
- Earpiece:** Dynamic
- Handset Cord:** Red, Retractable coil cord

Note: PT-304 includes a momentary spring action Push-to-Talk switch mounted in handset.

FT-301/302

- Finish:** Red, high impact plastic handset and cradle mounted on a red, enamel, heavy gauge steel support
- Mouthpiece:** Carbon
- Earpiece:** Dynamic
- Cradle Switch:** Precious metal, wiping self cleaning contacts
- Handset Cord:** Red, Retractable coil cord

Dimensions: Fits into FB-300 flush or FB-301 surface wall box

Note: FT-302 includes momentary spring action Push-to-Talk switch mounted in handset. FT-301C includes armored cable connecting handset to cradle assembly instead of retractable cord. FT-302C includes Push-to-Talk switch and armored cable. FT-302CL includes armored cable, Push-to-Talk Switch and indicator LED.

FB-300 Flush Mount Wall Box

- Finish:** Heavy Gauge steel painted in red enamel
- Dimensions:** 15" H x 7" W x 3.52" D

FB-301 Surface Mount Wall Box

- Finish:** Heavy Gauge steel painted in red enamel
- Dimensions:** 15" H x 8" W x 3.62" D

FC-300 Cover with Key Locked Door and Breakable Glass

- Finish:** Heavy gauge steel painted in red enamel with white silkscreened telephone icon
- Dimensions:** 15" H x 8" W

FJ-303/304

- Finish:** Red, baked enamel with white silkscreened telephone handset icon
- Wall Plate**
- Dimensions:** 2.75" x 4.5" — for mounting on single gang box
- Construction:** Rolled steel
- Jack:** 2 conductor 1/4" phono type jack

FJ-303SS/304SS

- Finish:** Brushed stainless steel silk-screened telephone handset icon
- Wall Plate**
- Dimensions:** 2.75" x 4.5" — for mounting on single gang box
- Construction:** Rolled steel
- Jack:** 2 conductor 1/4" phono type jack
