ECC-125DA(E)

The ECC-125DA(E) are intelligent 125 watts amplifiers that are used with the ECC-50/100(E) emergency voice evacuation system. These distributed audio amplifiers amplify an audio message for distribution throughout a facility when additional audio power is required. They are designed as self-contained amplifiers and can be conveniently installed near an area of protection to reduce wiring demands for speaker circuit outputs.

Honeywell Power Products

ECC-125DA(E) Features and Benefits

- Each unit includes four onboard fully supervised audio circuits which are expandable to eight circuits when an ECC-CE4 module is added
- Any combination of up to eight ECC-50DA(E)s or ECC-125DA(E)s per system for a total of 1100 watts of audio power and 24 speaker circuit outputs.
- Supports both Class A (Style Z) and Class B (Style Y) wiring.
- Easy setup and configuration by using a simple, built-in web based programming utility on the ECC-50/100(E)
- UL2572 (Communication and Control Units Mass Notification Systems).
- Built-in power supply and battery charger that supports up to 35AH. (For batteries larger than 18 AH, use the BB-26 or BB-55F Battery Box.)
- Sturdy, scratch resistant cabinet.
