

Model SD505-DUCT Duct Smoke Detector

Detect smoke in air handling systems and air handling equipment with Silent Knight's addressable duct smoke detector

The SD505-DUCT addressable duct smoke detector including the SD505-APS Analog Photoelectric Smoke Sensor is used for detecting smoke and products of combustion present in air moving through an HVAC air handling system. When smoke is detected in a duct, the unit communicates the condition to the IntelliKnight control panel. The panel, in turn, depending on programming and wiring, turns off fans, blowers, and other devices. Now there's even more power and flexibility available to the IntelliKnight family of products!

Duct Smoke Detector SD505-DUCT

The Model SD505 DUCT Duct Smoke Detector is a heavy duty detector housing with the SD505-APS Analog Photoelectric Smoke Sensor pre-installed. It provides early detection of smoke and products of combustion present in air moving through HVAC ducts in Commercial and Industrial applications.

The SD505-DUCT is in a heavy duty gray steel back box with a clear cover. It installs quickly and easily.

Operation

Air sampling is accomplished by two tubes which protrude into the duct. An exhaust tube of one standard length (7.5") is provided with the detector housing. Intake sampling tubes (ordered separately) are supplied in three standard lengths. Duct mounting is accomplished through a template and 4 sheet metal screws (provided).

SD505-DUCT

Features

- Two-wire connection to SLC
- LED alarm indication and communication on sensor head
- Detects and limits the spread of smoke
- Rugged steel backbox with clear plastic cover
- Installation template included
- Large terminal connection screws
- 3 standard tube lengths
- UL 268A listed, complies with NFPA 72 and 101

Specifications

Included Parts:

Metal housing with 7.5" exhaust tube; SD505-APS analog Photoelectric sensor; Installation template; 4 mounting screws

Accessory models:

(parts not included with SD505-DUCT)

SD505-T2 - Sampling tube for 6" to 2.5' duct width

SD505-T5 - Sampling tube for 2.5' to 5.0' duct width

SD505-T10 - Sampling tube for 5.0' to 10.0' duct width

Current:

.55 mA (alarm and standby)

Air Velocity: 300 to 4000 fpm

Ambient Temperature:
32°F to 120°F (0°C to 49°C)

Humidity:
10 to 85% RH

Dimensions:
91/8" H x 7.25" W x 2.25" D

Color:
Gray backbox with clear cover

Model SD505-DUCT

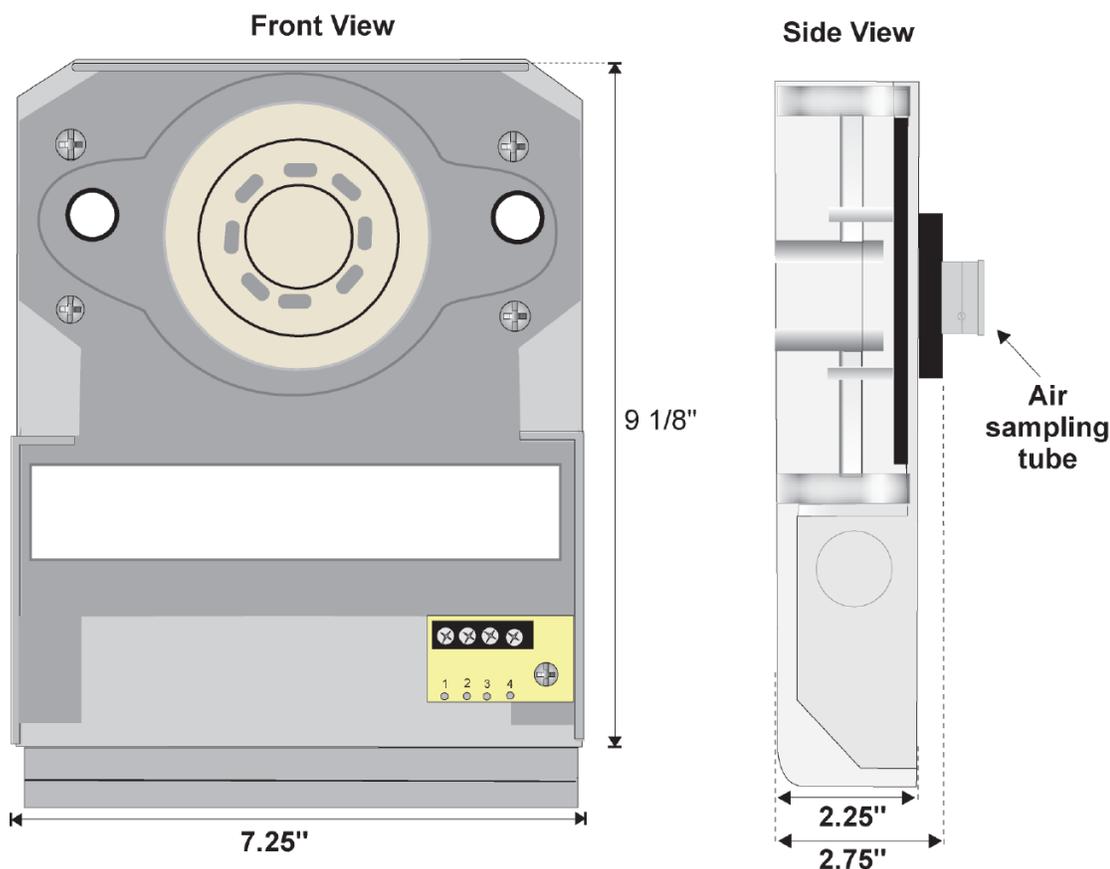

Duct Smoke Detector

Engineering Specifications

The air duct smoke detector shall be Silent Knight Model SD505-DUCT. The housing shall contain a Analog Photoelectric Smoke Sensor , Silent Knight model SD505-APS. The detector head must perform an automatic sensitivity check every 3 hours.

The duct detector housing shall be of metal construction. Complete mechanical installation must be able to be performed without removal of the detector cover. Terminal connections shall be screw type using a minimum of #6 screw.

SD505-DUCT Dimensions
