Product Discontinuation Notice

Dear Valued Customer:

On April 30, Eaton introduced [Eluxa](#), our best-in-class, next generation LED notification appliances. This complete portfolio of indoor notification appliances features a comprehensive range of low and high candela settings. Utilizing the latest advancements in LED technology, Eluxa provides the industry's lowest current draw across the full candela range, offering significant savings to customers by reducing installation costs, materials, and overall fire alarm system costs.

With the introduction of our latest innovation, this letter serves as formal notification that Eaton will be discontinuing the following Wheelock product lines.

- Wheelock Exceder LED3 notification appliances
- E50/E60 and E50H/E60H speakers
- E70H/E90H speakers (Note: E70/E90 are available for purchase)
- RSS strobes (indoor strobes)

For a list of all the discontinued models and Eluxa replacement models, please download the [Wheelock Discontinued Product list](#). You can also find the new Eluxa models on our [Product Cross Reference list](#).

Effective October 31, 2021, these Wheelock product lines will have lead-time to ship, starting at six weeks from PO receipt. On December 31, 2021, the Wheelock Exceder LED3, E50/E60, E50H/E60H, E70H/E90H, and RSS models will be discontinued and will be replaced as outlined on the Wheelock Discontinued Product list.
