SK-5235
Remote Annunciator

Program and Operate the SK-5208 FACP from a Distance with the SK-5235 Remote Annunciator.

The SK-5235 remote annunciator provides remote annunciation for the SK-5208 Fire Alarm Control Panel. The SK-5235 performs all system operations. It also provides trouble and alarm information and can be used for programming. The SK-5208 can support up to six 5235 Remote Annunciators.

Call Silent Knight today for more information 1-800-328-0103.

Operation

When the system is normal and receiving AC power, the power LED is on and all other LEDs are off. Other LEDs turn on as the conditions occur.

Users identify themselves to the control panel by entering a code on the annunciator. When a user presses a button, the annunciator piezo beeps and the LCD prompts the user to enter a code or other relevant information.

SK-5235 Remote Annunciator

Features

- 2-line 16-character LCD display
- Indicates Trouble, Alarm, Supervisory, and System Status conditions with LEDs and LCD display
- Each SK-5235 is individually supervised by the SK-5208 FACP
- Up to 6 per SK-5208 FACP
- Operation and appearance comparable to the control panel's on-board annunciator
- Can be wired up to 1500 ft from FACP
- OPR operator's key ships with SK-5235, this key can be used to perform user operations, but will not open the control panel door

Specifications

Operating Voltage:	24 VDC
Current Draw:	
Standby:	30 mA
Alarm:	50 mA
Dimensions:	
Width:	7-3/16" (18.26 cm)
Height:	5" (12.7 cm)
Depth:	1-1/8" (2.86 cm)
Operating Temp:	32° to 120° F (0° to 49° C)
Maximum Wiring Distance:	1500ft

Approvals

- MEA 429-92-E
- CSFM 7165-0559:137
- UL Listed
