

## Proreact<sup>®</sup> Fixed Activation Temperature Junction Box

### A1343

Proreact Fixed Activation Temperature Junction Box is an optional component that can be employed to connect different lengths of Proreact Fixed Activation Temperature Sensor Cable together should it be required. Such instances could be if there is a desire to increase the total length of sensor cable within a zone or if a small section of sensor cable needs replacing following an activation.

#### FEATURES

Designed for use in both indoor and outdoor installations  
Manufactured in the UK and short lead times ensuring quick delivery across Europe

#### MECHANICAL SPECIFICATION

Colour	White
Dimensions	155(h) x 145(w) x 60(d) mm (6"(h) x 5¾"(w) x 2¼"(d))
Rating	IP66 rated enclosure supplied with 2 IP67 rated cable glands
Weight	0.24 kg (½ lb)

#### APPLICATIONS

Cable trays	Conveyor belts
Car parks	Mines
Cold storage	Oil and gas tank farms

#### ELECTRICAL SPECIFICATION

Inputs - end of line resistor	5 DIN Rail mounted terminals & 2 cable glands
-------------------------------	---
