**ACCESS THE  
WORLD OF KNOX®**

2018-2019 Product Catalog

# 40+

Over forty years ago, a unique concept in fire response was born: KnoxBox®, a high security lock box was designed to provide rapid entry, reduce response times, and protect property from forced entry. Today, one revolutionary key lock box has grown into a complete system authorizing secure rapid access for industries and property owners across the world.

---

Knox is proud to say that over 14,000 fire departments and governmental agencies trust Knox Rapid Access Solutions.

# 5 REASONS TO DEPLOY A KNOX SOLUTION

Knox works with over 14,000 public agencies in providing solutions to enable emergency rapid access, when seconds matter.

- 1 RAPID ACCESS**  
Eliminate barriers and allow first responders to quickly gain access to secured properties.
- 2 PROTECTION**  
Protect property, inventory, and thousands of dollars in investments from fire and water damage by providing rapid access to first responders.
- 3 INVESTMENT**  
Eliminate costly repair from forced entry with a one-time, low cost investment.
- 4 LOW MAINTENANCE**  
All products are built Knox-Rugged to require little maintenance and retain their operational integrity even under extreme weather conditions.
- 5 SECURITY**  
Only your local fire department or public safety agency has the authority to access your Knox products.

# LISTED

# SECURITY UNCOMPROMISED

Knox products are built with security in mind.

## BUILT KNOX-RUGGED

Knox products are constructed with heavy-duty materials to operate in the most demanding environments, resist a physical attack, vandalism, and extreme weather conditions.

## ALARM READY

Knox Tamper Alert adds an extra layer of security by connecting to your building's alarm system and sounding off if triggered by unwarranted access.

## KEYWAY

Knox only uses factory restricted keys and locks for ultimate security.

## SECURED ACCESS

Typically, only your local fire department or public safety agency has access to your Knox products. However, Knox solutions can also be configured and deployed for your organization's unique access needs.

## INSTALLATION

Proper installation is imperative to guarantee the security and safety of your Knox products. All products are shipped with detailed instructions to ensure successful installation. Proper installation includes both the height of the box (recommended to be 6 feet off the ground) and the correct type and number of fasteners (five 3/8" diameter Grade 5 or 8 fasteners).
