## INVENTORY MANAGEMENT SOLUTIONS COMPATIBILITIES

Knox has partnerships and integrations with industry leading inventory management solutions to give EMS professionals the flexibility to choose the tracking solution that best meets their needs. Through the KnoxConnect Cloud software and easy-to-implement integrations, access transactions from Knox narcotic safes can be viewed and reported in partner software, enabling comprehensive and reliable chain of custody tracking and reporting and eliminating inefficient manual tracking processes. With options that require no investment in expensive equipment or technology that fully automated detection, EMS agencies can stay in compliance with licensing requirements no matter what the budget.

Contact your Territory Sales Manager to learn more about which inventory-management solution is best for you.

## ABOUT THE KNOX COMPANY

Since 1975, the Knox Company has successfully developed innovative rapid access solutions for first responders with products that provide fast, safe, and secure entry into commercial, industrial, and residential properties, while minimizing damage and maximizing safety. Today, more than 15,000 fire, EMS, and law enforcement departments/agencies depend on Knox products to gain access into over one million buildings/properties.
