

# Calling Cord Sets

**7675, 7676, 7685 & 7686**

## FEATURES

The Edwards Calling Cord Sets are for use with Edwards Cat No. 7930 and 7930L bedside stations. The cord sets have either one (7675 and 7685) or two (7676 and 7686) dependable positive action buttons to insure easy placement of calls. The vinyl outer covering provides a durable insulation that will withstand frequent cleaning and hard usage without cracking or fraying.

The security clamp firmly attaches to the bed sheets or pillows in a manner that will not tear or damage them.

For use with nurse call bedside stations.
