

9-10925

Standard sampling point assembly - complete with fixed sampling point

Description

The 9-10925 is a flush mount, capillary sampling point for use with false ceilings. It is supplied complete with a 27mm diameter t-union, to which the flexible sample pipe connects. The flexible sampling pipe has a diameter of 10mm and is 1m long. At the end of the flexible sampling pipe, the sampling point is connected which fits onto the false ceiling.
